OneClickDrive.com

Next.js Developer

Dear Hiring Team,

I'm applying for the Next.js Developer role at OneClickDrive.com. I have 3 years of professional full-stack experience at a US-based medical-device company, where I built web applications and a CRM, and I now build Next.js and React products in TypeScript with Tailwind CSS.

Your focus on server-rendered, SEO-friendly apps matches my work. PageForge is a Next.js 16 and React 19 app that integrates Sanity, Supabase, PostHog and HubSpot. My portfolio backend has server-rendered SEO with JSON-LD, Stripe bookings with signed webhooks, and 10 end-to-end API tests. I use Git and GitHub Actions day to day.

I'm available immediately and work from Pune on IST (UTC+05:30). My portfolio is at hussain-singapuri.vercel.app and my code is at github.com/huss2003. I'd welcome the chance to discuss the role.

Kind regards,

Hussain Singapuri
